

AGING CHART

A brief comment regarding our scale:

Drink/Early maturity - The wine is drinkable now, but it is in the earliest stage of maturity and can be cellared for up to 10-15 years.

Drink/peak maturity - This is the ideal time-frame we aim for the most enjoyable drinking experience and can be cellared 3-10 years.

Drink/late maturity - The wine is drinkable now, and we do not recommend aging much longer, 1-3 years maximum.

Past Prime - Tannins have softened significantly and the fruit may be muted. We recommend opening and drinking immediately.

- NOT YET RELEASED
- HOLD UNTIL 2024
- DRINK/EARLY MATURITY
- DRINK/PEAK MATURITY
- DRINK/LATE MATURITY
- PAST PRIME
- NOT PRODUCED
